INTRODUCTION**1. Legislative basis and scope of the document**

On 3rd March 2010, the Italian Corporate Governance Committee approved new principles about remuneration of directors and key management personnel and released accordingly a revised version of Article 7 (now Article 6) of the Italian Corporate Governance Code of March 2006 as amended in December 2011, encouraging issuers to apply the new principles by the end of the year that begins in 2011.

At a European level, the European Commission adopted on December 2004 a Recommendation (2004/913/EC) fostering an appropriate regime for the remuneration of directors of listed companies, on February 2005 a Recommendation (2005/162/EC) on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) board, and, on April 2009 a Recommendation (2009/385/EC) complementing Recommendations 2004/913/EC and 2005/162/EC as regards the regime for the remuneration of directors of listed companies.

Since the d'Amico International Shipping S.A. (hereinafter, the "Company"), a Luxembourg incorporated company subject to the Luxembourg laws and regulations, is listed on the Borsa Italiana's equity market and is admitted to the STAR segment of the Mercato Telematico Azionario of Borsa Italiana's equity market, is further subject and indeed voluntarily applies, to the extent of possible, the corporate governance criteria and principles stated by the Corporate Governance Code for the Italian Listed Companies issued by Borsa Italiana on March 2006 (hereinafter, the "Corporate Governance Code"), among which the new principles on remuneration.

In accordance with the Corporate Governance Code this document sets forth the General Remuneration Policy of d'Amico International Shipping S.A. and the Guidelines for the year 2012 on remuneration of executive directors and other directors covering particular offices of the Company as well as of key management personnel of the Company and its operative fully owned subsidiaries (hereinafter, the "Key Management Personnel").

The position used by d'Amico International Shipping S.A. in its General Remuneration Policy is that remuneration of executive directors, other directors covering particular offices and Key Management Personnel is defined in a way to align their interests with pursuing the priority objective of the creation of value for the shareholders in a medium-long term timeframe.

This General Remuneration Policy was approved by the Board of Director in its meeting held on February 23rd, 2012, upon proposal submitted by the Nomination & Remuneration Committee, with the involvement of all the relevant internal corporate

- *performance objectives are supposed to be preconceived, measurable and in a strong connection with the creation of value for shareholders in the medium-long term;*
- *a significant part of the bonus shall be postponed with a minimum deferment period.*

For the purpose of this General Remuneration Policy:

All remuneration can be divided into either fixed remuneration (payments or benefits without consideration of any performance criteria) or variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria). Both components of remuneration (fixed and variable) may include monetary payments of benefit (such as cash, shares, options, cancellation of loans, pension contributions, remuneration by third parties) or non (directly) monetary benefits (such as health insurance, discounts, fringe benefits or special allowance for car, mobile phone, etc.);
- the following categories must be included into the scope of the General Remuneration Policy:
 - executive directors and other directors covering particular offices, such as the President and the Chief Executive Officer;

The Key Management Personnel is from time to time identified by the respective involved company of the d'Amico Group.

Non-executive (and independent) directors are not included into the scope of this General Remuneration Policy and its guidelines for what concerns the variable component of the remuneration, since remuneration of non-executive (and independent) directors is not linked to the economic results achieved by the Company and non executive (and independent) directors are not

beneficiaries of share-based compensation plans, unless it is so decided by the annual general shareholders' meeting, which shall also explain the relevant reasons.

2.2.2. Fixed and variable remuneration

The d'Amico Group adopts a fully-flexible policy on variable remuneration.

Having a fully-flexible policy on variable remuneration implies not only that variable remuneration should decrease as a result of negative performance but also that it can go down to zero in some cases. For its practical implementation, it also implies that the fixed remuneration should be a sufficiently high proportion of total remuneration, to remunerate the professional services rendered in line with the level of expertise and skill required and the relevant business sector and region and to allow the operation of a fully flexible variable remuneration policy, including the possibility to pay no variable remuneration.

These Guidelines are not directly concerned with setting numerical levels of fixed remuneration, since the fixed remuneration of the Directors is primarily the result of a shareholders' resolution and, in case of Key Management Personnel, of negotiations between a staff member and the Company or its operative fully owned subsidiaries.

Variable remuneration is linked to a target threshold related to the Company's EBITDA as recorded in the Consolidated Financial Statements approved by the Company's Shareholders.

2.2.3. Ratio between fixed and variable remuneration

Meeting a fully flexible variable General Remuneration Policy implies as a prerequisite the accomplishment of several mechanisms, including:

- the maximum ratio on the variable remuneration compared to the fixed remuneration, and
- proper performance measurement and associated risk adjustment.

GENERAL REMUNERATION POLICY

2012

References:*Corporate Governance Code of Borsa Italiana*

On the first point, fixed and variable components of total remuneration are appropriately balanced in order to provide an incentive to pursue the goals and interests of the Company, shareholders and stakeholders, and in order to avoid the inducement to assume inappropriate risks; the higher the possible variable remuneration compared to the fixed remuneration, the stronger the incentive will be to deliver the needed performance, and the bigger the associated risks may become.

The Company sets its ratio between fixed and variable remuneration considering the appropriate balance depends on:

- the quality of performance measurement;
- the length of the deferral and retention period;
- the legal structure of the Company and scope of the activities;
- business types and which risks are involved.

The ratio between fixed and variable remuneration is settled at the moment of initial performance measurement; the variable part of remuneration falls in the range of a minimum of 30% and a maximum of 50% of the singularly allotted fixed remuneration.

2.2.4. Payout process

In case the person is entitled to the variable remuneration, the payment of a significant part of such remuneration is delayed of a minimum of six and a maximum of twelve (6-12) months.

2.2.5. Non monetary benefits

The remuneration of executive directors and other directors who cover particular offices and the compensation of Key Management Personnel may includes benefit such as car, housing allowance, school fees and health insurance.

GENERAL REMUNERATION POLICY2012

References:*Corporate Governance Code of Borsa Italiana***2.2.6. Share based remuneration**

At present, share-based remuneration is not included into the General Remuneration Policy and is not part of the remuneration of executive directors, other directors covering particular offices and Key Management Personnel.

2.2.7. Termination payments

At present, termination payment is not included into the General Remuneration Policy and is not part of remuneration of executive directors, other directors covering particular offices and Key Management Personnel.

2.3. Remuneration of executive directors and other directors covering particular offices

According to the above stated principles , total compensation for executive directors and other directors who cover particular offices is composed of two different parts:

- a base fee, namely a fixed amount identified;
- an individual and variable bonus to be allotted depending on the Company's Group performance, set as a share of the individually allotted base fee.

For each director, the individual bonus is set as a share of the individual base fee. Such share is 30% of the base fee, in order to reach an adequate trade off of base and variable fee, in the light of core business strategic objectives and the risk management policy.

As far as the individual bonus is concerned, based on the proposal of the Remuneration & Nomination Committee, the Board of Directors provides for an "ability to pay" condition defined in terms of Company EBITDA Result, as recorded in the Consolidated Financial Statements approved by the Company's Shareholders.

GENERAL REMUNERATION POLICY2012

References: *Corporate Governance Code of Borsa Italiana*

The payment of the variable part of remuneration is delayed of twelve (12) months.

Moreover:

- members of the Board of Directors shall in addition be reimbursed for all other expenses whatsoever incurred by the members of the Board of Directors in relation with such management of the Company or the pursuit of the Company's corporate object;
- the remuneration may also include non-monetary benefits such as car, housing allowance, school fees and health insurance.

Members of the Board of Directors involved in Company's internal committees are not entitled to further compensation apart the base one.

2.4. Remuneration of Key Management Personnel

The Key Management Personnel is involved in the Company's managerial incentive system.

The Key Management Personnel includes:

- Chief Operating Officer;
- Chief Financial Officer;
- Operation Manager;
- Fleet Manager.

The Key Management Personnel remuneration (compensation package) consists of a fixed component (base salary) and a variable component (bonus) subjected to the achievement of the target thresholds. The target thresholds are related to the EBITDA as recorded in the Consolidated Financial Statements approved by the Company's Shareholders.

The payment of a significant part of the individual bonus is delayed of a minimum of six and a maximum of twelve (6-12) months.

The compensation package may include non-monetary benefits such as car, housing allowance, school fees and health insurance.

2.5. Remuneration of Supervisory Director and person in charge of Internal Controls and for responsible for the preparation of the corporate financial documents.

Since the Supervisory Director (Executive Director in charge for supervising the functionality of the Internal Control System) is identified in the Chairman of the Company, there are not further relevant provisions for his remuneration and no further remuneration is settled for this role unless a change may occur.

Since the person responsible for the preparation of the corporate financial documents coincides with the Chief Financial Officer, there are not further relevant provisions for his remuneration and no further remuneration is settled for this role.

The Internal Control Officer (person in charge of Internal Control) is also in charge of the Internal Audit function and is a person external to the Company, employed by the indirect controlling shareholder of the Company. The internal control officer's remuneration consists of a base salary plus a bonus and it is fully paid by the controlling shareholder of the Company.
